The Academy –
An Iqra University School System

The Academy, a manifestation of the vision of Iqra University’s Faculty of Education, started its journey in 2010. The management of Iqra University, in keeping with their commitment to imparting quality education, wanted to bring this excellence to the elementary and high secondary levels: thus, The Academy.

In this short time period, The Academy has grown phenomenally, with five purpose built branches across the city. The Academy has lived up to its expectations of differentiating itself and provides education par-excellence. The Academy’s standards remain impeccable and the focus on learning beyond classrooms makes it stand out from other contemporary schooling systems.

The Academy is a purpose built project, recognized for its learner centered classroom settings embedded in a modern learning backdrop. This holistic education base cultivates the moral, psychological and physical dimensions of the learners, facilitating them in expressing and reinventing themselves. The Academy fosters on a global humanistic identity, vital in today’s rapidly transforming socio-cultural world. Within half a decade, The Academy has succeeded in creating a learning subset that goes beyond conventional teaching, instituting continuous professional development programs, parallel workshops for parents, and outreach operations through ‘institutionalizing’ contacts. Thus, continuing Iqra University’s tradition of excellence in education, we at The Academy continue to pursue higher standards, with an emphasis on fostering independence and creativity of the learner, while consistently endeavoring to transform and adapt new initiatives of academic distinction.
Vision
The Academy School prepares students to understand, contribute to, and succeed in a rapidly changing world, and thus become responsible, contributing members of society. We will ensure that our students develop the skills a sound liberal arts education provides, and the competencies essential for success and leadership in the emerging creative economy. We will also lead in generating practical and theoretical knowledge that enables people to better understand our world and improve conditions for local and global communities. The Academy is founded upon the principles that all graduating students will possess, an infinite love of learning: demonstrate a facility to discern, and exhibit genuine respect for all, regardless of gender, caste, creed or ethnic background.

Mission
The mission of The Academy is to promote learning, to equip students with perceptual skills, and to ignite an attitude of learning and inquiry through stimulating academic study, creativity and independent thought. It seeks to create a challenging, learning environment and to provide innovative resources that encourage a culture of high expectations, where each individual will feel valued, grow in inspiration, tenacity, and ambition, and form long-lasting bonds with their peers, teachers, mentors, families, and society. The Academy aims to generate an ambience of mutual collaboration, with appreciation for individual differences and community values.

Values
The Academian will be:
- Wise
- Entrepreneur
- Tolerant
- Loyal
- Honest
- Critical Thinker
- Leader
- Compassionate
- Self-disciplined
- Trustworthy
- Responsible
Strategy and Approach

At The Academy, we believe in excellence in academics. We practice a learner-centered approach to teaching, with a proactive methodology of innovative instruction that fosters a meaningful, educational experience. We have trained faculty members who provide individualized learning experience in partnership with parents. While following these overarching aims, we never lose the sight of making sure our students add value to society, become successful human beings, and contribute toward making this world a better place to live.

Purpose Built Campuses

The concept of a school remains incomplete without a purpose-built campus. In order to make them compliant with modern requirements of education, school campuses all around the world are special focus of educationists. Thus, The Academy has constructed state-of-the-art, purpose-built school campuses to help children receive the education and care they need on a continued basis, in a safe and supportive environment.
Academic Support Facilities

Learning beyond class rooms: this is not merely a metaphor at The Academy; we live our dreams. We leave no stone unturned in ensuring our students have an equally enriching and mentally stimulating experience. That is why the academic support facilities at The Academy, intended to complement academic instructions, are second to none. Our facilities include:

- State-of-the-art computer lab
- Learning Resource Center/Library
- Ancillary creative and athletic area
- Purpose built campuses
- Activity based classrooms
- Art Room
- Music Room
- Indoor and outdoor sports facilities
- Child psychologist
- Kids Clubs

Affiliations

In addition to its parent organization Iqra University, The Academy has strong linkages at the national and international level with institutions like St. Michael School, UK, 101 Model Schools and Eastern Kentucky University USA, the British Council, the Department of Education & Literacy, Government of Sindh, Notre Dame Institute of Education, Karachi, and Australian Catholic University Australia.
